

**Minutes of the 1st joint meeting of the LP and PP personnel of the SESPROT project,
Szeged, January 26, 2011.**

List of participants:

From Timisoara, Romania:

Management team members and internal experts: Dr. Adrian Neagu, Dr. Monica Neagu

Internal expert: Dr. Mircea Focsa

From Szeged, Hungary:

Project manager and internal expert: Dr. László Zimányi

Management team members and internal experts: Dr. Csaba Bagyinka, Dr. Alajos Bérczi, Dr. András Dér

Internal experts: Dr. Ferenc Bogár, Dr. Zsolt Szegletes

Ph.D. students: Sarolta Bankó, László Fábián, Zsuzsanna Kucsma, Katalin Tenger,

Financial management: Margit Fórizs, Anikó Hrk

The attendance register is attached.

Programme:

1. Presentations on the scientific advancement of the project in the first trimester and on the possible directions of future collaborative research:

Ferenc Bogár: Molecular modelling of the Hofmeister effect on the conformation of the tryptophan cage miniprotein

László Fábián: Effects of Hofmeister salts on protein secondary structure followed by circular dichroism spectroscopy

Csaba Bagyinka: Hofmeister salt effects on the conformation of the hydrogenase protein

Lunch break

Alajos Bérczi: About a putative „tumor suppressor” cytochrome b561 protein

Mircea Focsa: Presentation of the SESPROT project webpage and its discussion

Adrian Neagu: Hofmeister effects: The impact of ionic cosolutes on the kinetics of certain biochemical reactions

2. Meeting of the LP project manager (Dr. L. Zimányi), the PP management team members (Drs. A. Neagu and M. Neagu) and the LP financial manager (M. Fórizs)

Discussion of the mode and action of preparing the first project progress report.

3. Final discussion of the scientific challenges and future directions for the next trimester.

Szeged, January 26, 2011.

Dr. László Zimányi
SESPROT project manager
