

**Minutes of the 6th joint meeting of the LP and PP personnel of the SESPROT project,
Szeged, March 28, 2012.**

List of participants:

From Timisoara, Romania:

Management team members and internal experts: Dr. Adrian Neagu, Dr. Monica Neagu

Internal experts: Dr. Oana Munteanu, Liliana Lighezan

From Szeged, Hungary:

Project manager and internal expert: Dr. László Zimányi

Management team members and internal experts: Dr. Csaba Bagyinka, Dr. András Dér, Dr. Alajos Bérczi

Internal experts: Dr. Katalin Tenger, László Fábrián, Sarolta Bankó, Zsuzsanna Kucsma

The attendance register is attached.

Programme:

1. Presentations on the scientific advancement of the project in the last half-trimester:

Cosolute-induced changes in the evolution of bR photointermediates and the barrier fluctuation model

Monica Neagu, András Dér, György Váró, László Zimányi and Adrian Neagu
Victor Babes University of Medicine and Pharmacy, Timisoara
Biological Research Centre of the Hungarian Academy of Sciences, Szeged

Kinetics of electron transport in a hydrogenase enzyme with two iron-sulfur clusters

Adrian Neagu, Oana Munteanu, Monica Neagu, László Zimányi and Csaba Bagyinka
Victor Babes University of Medicine and Pharmacy, Timisoara
Biological Research Centre of the Hungarian Academy of Sciences, Szeged

Effect of Hofmeister salts on the activity of hydrogenase

Zsuzsanna Kucsma, Sarolta Bankó and Csaba Bagyinka
Biological Research Centre of the Hungarian Academy of Sciences, Szeged

Redox and spectral properties, and ligand specificities of cytochrome b561 proteins – new results and unsolved problems

Alajos Bérczi and László Zimányi
Biological Research Centre of the Hungarian Academy of Sciences, Szeged

2. Meeting of the LP project manager (Dr. L. Zimányi and, the PP management team members (Drs. A. Neagu and M. Neagu)

Discussion of the mode and action of preparing the last project progress report. Handing over to the LP the Declarations on validation of expenditure for the third trimester, as corrected by the Romanian First Level Control Agency.

3. Final discussion of the scientific challenges and on the possible directions of future collaborative research.

Szeged, March 28, 2012.

Dr. László Zimányi
SESPROT project manager
